

EllynAnne Geisel has now authored two books: "The Apron Book" and "The Kitchen Linens Book"

new, the edges still quite crisp from being folded in the box for so many years.

Professional photographer **Eliot Crowley** was kind enough to take my photo in the oversized Julia Child apron. I now have my own apron memory and my piece of history from one of my favorite heroines. Wearing the apron inspired me to dig out my original "Mastering the Art of French Cooking" from my cookbook library. The pages are rather yellow and there are some real butter splatters on the page with the French chicken with cream and curry recipe, which became a signature dish of mine.

Though Julia is no longer here,

she is in our hearts. We loved her for instructing us to have a sense of humor about cooking and a love and zest for life and food rather than an obsession over our waistlines. Bon Appétit!

EllynAnne fulfilled her dream of becoming a published author, first with the award-winning "The Apron Book," which connects women of one generation to another through the icon for domesticity, and a recent publication, "The Kitchen Linens Book," which celebrates the artistry and industry of women through the cloth goods of a home. Her writings about Julia Child and our friendship can be read on her blog at www.apronmemories.com. *My*
